Dear Sir or Madam:

Please accept this letter from the members of the Construction Industry Service Corporation (CISCO) in support of local Responsible Bidder Ordinances and or Resolutions. CISCO is the leading labor/management association in Cook, DuPage, Kane, Kendall, Lake and McHenry Counties representing 110,000 union trades people, 5,000 union contractors and numerous owners, developers, financial institutions and other industry groups.

Many workers have been cheated out of wages, communities have been cheated out of revenue, taxpayers have been subsidizing illegal activities, and the integrity of public officials has been brought into question after awarding contracts to dishonorable contractors who deliver poor quality products over budget and behind schedule. Responsible Bidder Ordinances/Resolutions set a minimum requirement for all contractors and subcontractors bidding on publicly funded projects in the political jurisdiction covered by the ordinances/resolutions.

What are the specific requirements? All Bidders must:

1. Comply with all pre-requisite to do business in Illinois;
2. Produce evidence of a federal employer tax number or social security number;
3. Provide evidence of compliance with the Equal Opportunity Employer requirements;
4. Provide evidence of all insurance coverage's;
5. Comply with all provisions of the Illinois Prevailing Wage Act;
6. Must participate in a USDOL approved and registered apprenticeship program; and,
7. Comply with any other additional requirements a community may find beneficial.

The Responsible Bidder Ordinances/Resolutions is truly for "Responsible Communities." Thank you for allowing CISCO to voice its support on such an important issue.

Sincerely,

Dave Henderson, CISCO Board President

CISCO
